Gregg

	The MAILING DATE of this communication appears	on the cover sheet w	vith the correspondence address		
	for Reply				
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.  - Extensions of time may be available under the provisions of 37 CFR 1.136 (e). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the					
mailing	date of this communication.	,	, , , , , , , , , , , , , , , , , , , ,		
- If NO p - Failure - Any re	period for reply specified above is less than thirty (30) days, a reply within to period for reply is specified above, the maximum statutory period will apply to reply within the set or extended period for reply will, by statute, cause to ply received by the Office later than three months after the mailing date of patent term adjustment. See 37 CFR 1.704(b).	and will expire SIX (6) MONT the application to become AB/	HS from the mailing date of this communication. ANDONED (35 U.S.C. § 133).		
Status					
1) 💢	Responsive to communication(s) filed on Apr 3, 20	)02			
2a) 🗌	This action is <b>FINAL</b> . 2b) 💢 This ac	tion is non-final.			
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under <i>Ex parte Quayle</i> , 1935 C.D. 11; 453 O.G. 213.					
Disposit	tion of Claims				
4) 🗶	Claim(s) <u>1-30</u>		is/are pending in the application.		
4	a) Of the above, claim(s)		is/are withdrawn from consideration.		
5) 🗆	Claim(s)		is/are allowed.		
6) 💢	Claim(s) 1-30		is/are rejected.		
7) 🗆	Claim(s)		is/are objected to.		
8) 🗌	Claims	are subj	ect to restriction and/or election requirement.		
Applica	tion Papers				
9) 🗆	The specification is objected to by the Examiner.				
10)	10) ☐ The drawing(s) filed on is/are a) ☐ accepted or b) ☐ objected to by the Examiner.				
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).					
11)	The proposed drawing correction filed on	is: a) 🗆	] approved b) $\square$ disapproved by the Examiner.		
	If approved, corrected drawings are required in reply	to this Office action.			
12) The oath or declaration is objected to by the Examiner.					
Priority under 35 U.S.C. §§ 119 and 120					
	13) Acknowledgement is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).				
a) ∟	a) □ All b) □ Some* c) □ None of:				
	1. Certified copies of the priority documents have been received.				
2. Certified copies of the priority documents have been received in Application No.					
	<ol> <li>Copies of the certified copies of the priority dapplication from the International Burese the attached detailed Office action for a list of the</li> </ol>	eau (PCT Rule 17.2(a	a)).		
<ul> <li>14) ☐ Acknowledgement is made of a claim for domestic priority under 35 U.S.C. § 119(e).</li> <li>a) ☐ The translation of the foreign language provisional application has been received.</li> </ul>					
15) Acknowledgement is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Art Unit: 2875

### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

Claims 1-4, 7, 15-18 and 21 are rejected under 35 U.S.C. 102(e) as being anticipated by Pfaeffle '559. Pfaeffle '559 discloses at least one light conductive path (96-104)attached to the exterior surface of a helmet. The path has a first end optically coupled to a light source and a second end for emitting light.

#### Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

Claims 1-7, 14-21 and 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Baumgartner. Baumgartner discloses at least one light conductive path 16 attached to the exterior surface of a helmet. The path has a first end optically coupled to a light source 22 and a

second end for emitting light. Baumgartner further teaches that LEDs having various colors and rechargeable batteries may be used with the lighting assembly.

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-7, 14-21 and 28 rejected under 35 U.S.C. 102(b) as being anticipated by Shea,
- Sr. Shea, Sr. discloses at least one light conductive path (28-32) attached to the exterior surface of a helmet. The path has a first end optically coupled to a light source and a second end for emitting light.

#### Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Application/Control Number: 09/828,239

Art Unit: 2875

Claims 8-13, 22-27 and 29-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Glatt ('947 or '409) in view of (Pfaeffle or Baumgartner or Shea, Sr.). Regarding claims 8-9, 11-13, 22-23, 25-27 and 29-30. Glatt ('947 or '409) teaches the claimed invention except for the teaching of a light conductive member for transmitting light from one end to an opposite end thereof. (Pfaeffle or Baumgartner or Shea, Sr.) all teach fiber optic light members for transmitting light along the exterior surface of the helmet. It would have been obvious to one skilled in the art at the time the invention was made to substitute the fiber optic lighting systems of (Pfaeffle or Baumgartner or Shea, Sr.) for the string lights of Glatt ('947 or '409) in order to efficiently transmit light over a greater surface while using less battery power. Regarding claim 10 and 24, Glatt ('947 or '409) discloses the claimed invention except for the signal receiving means being an ultrasonic, radio frequency or infrared signal. It would have been obvious to one skilled in the art at the time the invention was made to substitute an ultrasonic, radio frequency or infrared signal receiving means for the signal receiving device of Glatt ('947 or '409) since the examiner takes official notice of the equivalence of these types of signaling devices in the illumination art and therefore these signaling receiving devices would be interchangeable to one skilled in the art.
